ANNOUNCING the new voice in business software.

Organization is KEY when it comes to doing great business.

SING helps you manage your business and sales operations with ease. It simplifies and automates your operations creating greater productivity and satisfaction. With SING, all of the challenges of managing inventory and customers are gone at the stroke of a key. And SING isn't just software. Installation, training, customization and ongoing support are all part of the package.

SING is one complete system.

- Manage your contact base – organized information at your fingertips.
- eBay certified - makes managing an eBay business or channel a snap.
- Quickbooks integration makes creating and sending invoices automatic.
- Generate quotes with the push of a button.
- Take control of your inventory and pictures of products.
- Speed - find information in just a few key strokes.
- Multi-user network ready – single computer or network compatible.
- Offline function - produce quotes, set up eBay auctions, or review sales forecasts without an Internet connection.
- Fully integrated with your website. (optional module)
- Built-in and customized reports.
- Create new customers from e-mail inquiries automatically.
- Bulk e-mail (optional module) – send strategic e-mails to contact groups.
- Microsoft.net platform - easily expand and integrate with any Microsoft based program.

SING and be joyful.

Complete satisfaction means we want to put a smile on your face everyday. You'll receive courteous service and straightforward answers to your questions every time you call or email our service team.
